

The Indiana DO NOT CALL list is supported and very much needed in our area. We would receive up to 20 calls per day. We would receive forced shipments of product, vendors expected payment, even though we did no order them. It was a interruption day and night. We still receive the hang-up calls, testing when we are home. We only receive 5 of those per day. Even when someone is on the phone, and we request to be removed from the list, they never stop under your rules. My question is, why give telephone solicitors more power. I work 24 hour shift, with emergency call back in. These people interrupt my sleep several times per day. I have to keep the phone on so I am alert to emergencies. Give the tax payers a break, PLEASE SUPPORT INDIANA LARGE REQUEST, and not a few wanting to sell by phone. We pay more to tax then the sells people. Please listen to the thousands in Indiana who wants protection and the support of our Federal government. PLEASE DO NOT TURN YOUR BACK ON US. Look at Indiana's no call list. Count the number's. Look to who has, and the large numbers wanting your support. By numbers alone, we should have your, time, attention and support. Please help Indiana by supporting our laws.
